

## Meet the TutuTix Door Ticket Kit

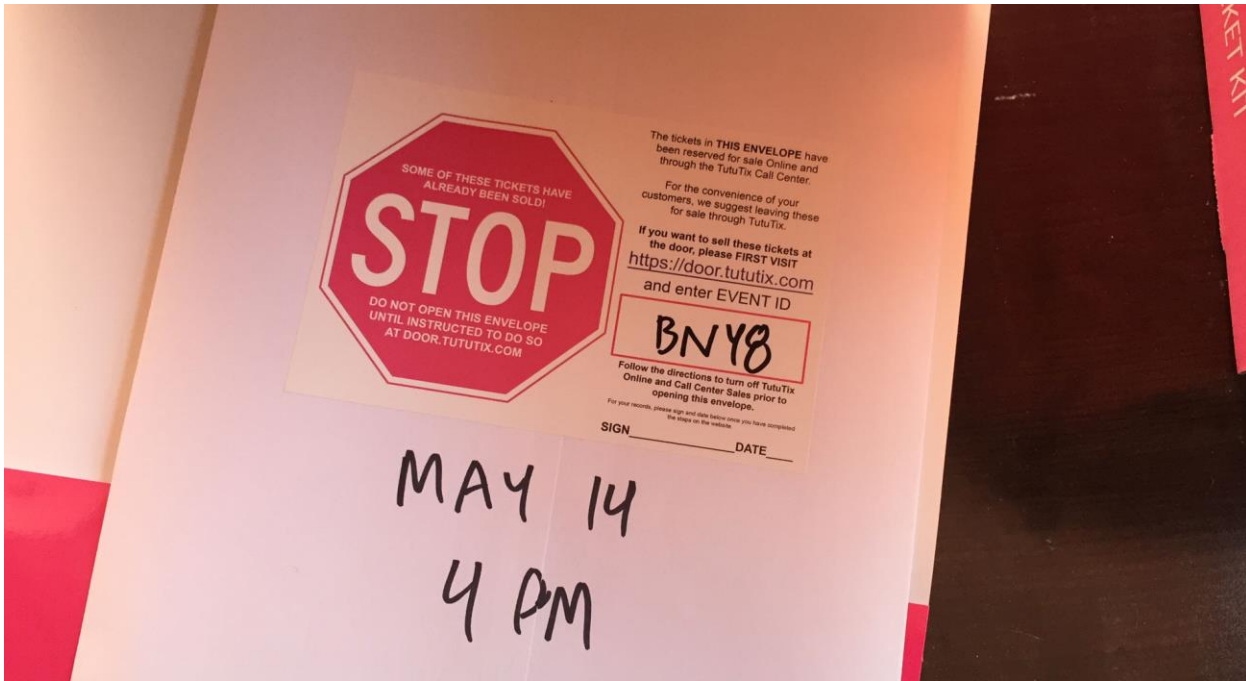

New this year, TutuTix is shipping a complimentary Door Ticket Kit to all qualifying clients. This kit includes all you need to sell tickets at the door.

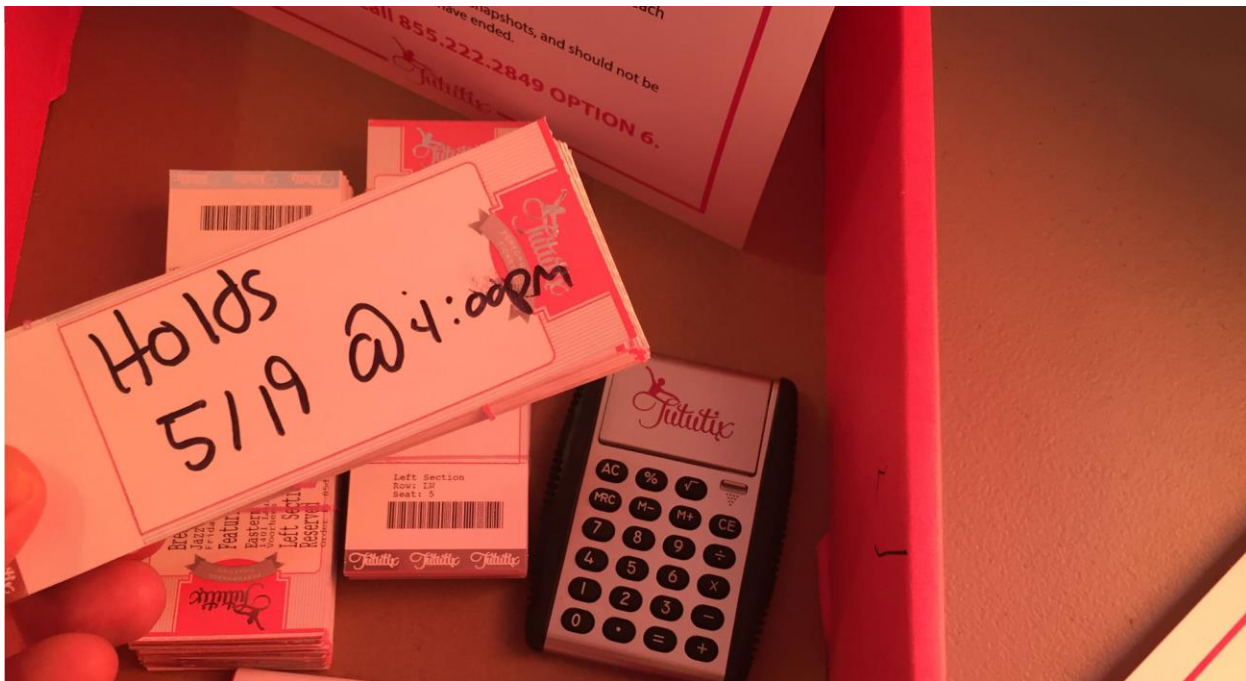

It includes pink event folders for each of your events, each with a four digit event ID on the front.

Within each of these folders is an envelope marked with a STOP sign. These envelopes contain inventory that is being reserved for TutuTix online and call center sales. We suggest leaving online and call center sales active for as long as possible, in order to make things convenient for your patrons.

The Door Ticket Kit also includes your holds, printed as hard tickets. These are banded together in stacks at the bottom of the box.

Also at the bottom of the box, you will find hard tickets corresponding to the remaining available inventory for each of your events, grouped by section and labeled according to section and event. You can sell these tickets at the door.

We also included some extra materials to make your day-of-show sales process run more smoothly.
